SUBJECT: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

State Clearinghouse Number (if submitted to State Clearinghouse): 2024080496

Project Title: Reservoir 20B (CIP 14-W008)

Project Applicant: Dublin San Ramon Services District

Project Location (include county): End of Savanna Court (w/in Francis Ranch Devlpmt), Alameda Cnty

Project Description:

Installation of a 1.3 million gallon potable water, buried concrete tank. The project includes installation of all associated piping, valves, electrical equipment, and telemetry required for operation of the tank.

This is to advise that the Dublin San Ramon Services District (DSRSD) has approved the above
 (☒ Lead Agency or ☐ Responsible Agency)

described project on 10/15/2024 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [☒ was ☐ was not] adopted for this project.
5. A statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
6. Findings [☒ were ☐ were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

**NOTICE OF DETERMINATION ON A PROJECT
FOR WHICH A PROPOSED MITIGATED NEGATIVE DECLARATION HAS BEEN APPROVED**

Project Title: Reservoir 20B (CIP 14-W008)
Project Location: Eastern Terminus of Savannah Lane
Assessor's Parcel Numbers: 905-25-110, 905-25-109
City and County: City of Dublin, Alameda County

Description of Nature and Purpose of Project:

The Dublin San Ramon Services District (District) owns and operates a potable water distribution system that provides water service to the City of Dublin and the Dougherty Valley portion of the City of San Ramon. The Reservoir 20B (CIP 14-W008) project will construct an underground pre-stressed concrete potable water storage tank intended to increase water storage for Zone 20 on the east side of Dublin.

The District has determined that these actions constitute a project within the meaning of the California Environmental Quality Act (CEQA) and has concluded that the project fits within the Notice of Determination on a Project for which a Proposed Negative or Mitigated Negative Declaration has been Approved CEQA Guidelines (California Code of Regulations, Title 14, Section 15075 (a) et. seq.).

Purpose of the Project

The purpose of the Reservoir 20B (CIP 14-W008) project is to provide additional potable water storage in Zone 20 to reliably meet current and future demands in eastern Dublin (including the Francis Ranch area) consistent with the District's Water Master Plan and to maintain hydraulic consistency with existing Zone 20 facilities.

Existing Conditions

The project site consists of undeveloped hillside grassland that has been previously graded within the Francis Ranch development area in eastern Dublin. The underground tank will be constructed at the hilltop; following installation, soil will be backfilled and the site will be restored to a condition visually similar to existing open space.

Proposed Project Activities

Construction of an underground pre-stressed concrete potable water reservoir (approximately 1.3 million gallons; ~102-foot diameter; ~17,500-sq-ft footprint).

- Install a maintenance access staircase (no paved access road).
- Install approximately 1,000 linear feet of welded steel water supply main and a check valve vault to connect to the East Ranch system.
- Install approximately 425 linear feet of storm drain pipeline connecting to the planned inlet south of the tank.
- Install an 8-foot chain-link security fence and a communications antenna up to 12 feet in height.
- Provide electrical power and SCADA infrastructure to support reservoir operations.

Project Construction

Project construction is anticipated to last up to approximately 15 months. Excavation will require approximately 30,000 cubic yards of cut, with approximately 26,000 cubic yards used as fill and a net

export of approximately 12,000 cubic yards; construction of the staircase will result in a net export of approximately 9,000 cubic yards. Following construction, soil will be backfilled to restore the hilltop topography and the reservoir will remain entirely below grade.

CEQA Compliance

The District prepared and the Board of Directors adopted the Final Initial Study/Mitigated Negative Declaration (IS/MND) for the Reservoir 20B (CIP 14-W008) project, along with a Mitigation Monitoring and Reporting Program, on October 15, 2024. With implementation of mitigation measures, the project will not result in significant environmental effects. Filing of this Notice of Determination is pursuant to CEQA Guidelines Section 15075(a).

Name of Person, Board, Commission or Department Proposing to Carry Out Project:
Dublin San Ramon Services District

Remarks:

As described below, the project meets the CEQA criteria for the Notice of Determination on a project for which a Proposed Negative or Mitigated Negative Declaration has been Approved.

The Reservoir 20B (CIP 14-W008) project meets criteria under 14 CCR §15075(a), whereby *"The lead agency shall file a Notice of Determination within five working days after deciding to carry out or approve the project. For projects with more than one phase, the lead agency shall file a Notice of Determination for each phase requiring a discretionary approval."*

The Reservoir 20B (CIP 14-W008) project will take place in accordance with the approved mitigated negative declaration and mitigation monitoring plan. The project will remove and replace existing soil, and the finished grade will remain largely the same upon project completion. Construction activities will be temporary and will occur within the Districts parcels. All construction activities will be monitored as proposed in the approved plan.
