

**Dublin San Ramon Services District  
FIRE LINE SYSTEM FINAL METER READ FORM**

The purpose of this form is for backflow prevention device testers and maintenance personnel to report final meter read(s) of defective fire line meters. When testing double detector checks, testers must verify if the meter is working properly. If the meter is not working properly it must be replaced per District Approved Tester Requirements, and final meter reads must be submitted to the District prior to the replacement of a faulty fire line meter.

When replacing a defective fire line meter, the following information is required:

<b>BUSINESS NAME</b>
<b>SITE ADDRESS</b>

Site Account Number	DCVA Serial Number	Defective Meter Number	Defective Final Meter Read	New Meter Number	New Meter Read	New Meter Mfr.

The information submitted is to the best of my knowledge and belief true, accurate and complete.

Print Name: \_\_\_\_\_

Title: \_\_\_\_\_

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

Submit this form to the Engineering Department either by fax, email, or mail.
